6. We learned Monday that the telephone company disconnected service to the man who placed over 2,400 calls to the Agency unclassified switchboard in an eighteen-day period.

10. The Key Building secure voice switch was activated on 13 August. All KY-3 service (the gray safe-like cabinet that once sat in many offices) to the Key Building has been discontinued.

11. We have not yet experienced any major problems as a result of the telephone workers strike; although in some cases telephone company response to trouble calls has been slower. C&P management personnel completed installation of the Chamber of Commerce Dimension system and are making slow progress on the Ames and Key Dimension system installation. None of those systems will be activated until after the strike.
